

2018/広島大学/英作文対策 No3

(A) 上のグラフ(加工しています)に関して、①このグラフは何についてか、②このグラフから読み取れることを2つ挙げ、それぞれその原因を推測して100語程度の英文で書きなさい。ただし、コンマやピリオドは字数に含めません。解答欄の最初の()に使用した語数を記入しなさい。

《 100 》

This graph shows the amount of digital book's sell in 2002-2018 in Japan.

We can see the two changes in the graph.

Firstly, the amount has been increasing rapidly and the amount in 2018 is 279 times as much as that in 2002.

I guess that the amount in 2011 was smaller than the year before due to the Great East Japan Earthquake.

Secondly, the digital books for personal computers and mobile phones disappeared in 2014 and only the books for a smart phone would be sold after then.

This is because fewer and fewer people have used mobile phones .

(B) 読書の形態は変化している。そして、「もう20年もすれば紙の書籍は限りなくゼロに近づく」と考える人もいる。あなたはこの推測をどう考えるか。あなたの考えを100語程度の英文で書きなさい。ただし、コンマやピリオドは字数に含めません。解答欄の最初の()に使用した語数を記入しなさい。

《 103 》

I think that the paper books will not disappear in twenty years.

There are two main reasons.

The first reason is that the substance of paper has a great effect on our feelings.

For example, we are satisfied with physical touch on paper and thickness of a book , which e-books do not have.

The second reason is that the paper book is easy for us to look for the page we want to read again.

Looking for something by intuition=直感で(またはsenses=感覚) is superior to that of electric search in speed.

I believe that the analog technology sometimes beats the digital one in some ways.
